

DATA SHEET

LED DOWNLIGHT FOR BUILDING-IN 6.5W, 4200K, 220-240V AC, SATIN NICKEL, IP44

LLV6542SN

DESCRIPTION

The Ultralux LED downlights have a high luminous flux and colour rendering index, flicker-free light, and long exploitation period. This helps achieve considerable savings from energy and maintenance. Designed for direct replacement of the standard downlights. The wide beam angle 120° and the IP44 protection rate, makes the LED downlights suitable for general lighting in rooms and premises with higher levels of moisture and dust.

Electrotechnical information

- Power: 6.5 W
- Voltage AC: 220-240 V
- Frequency: 50-60 Hz
- Dimmable: no

Light technical information

- Rated luminous flux: 520 lm
- Correlated Color Temperature (CCT): 4200
- Color Rendering Index (CRI): >80
- Beam angle: 120 °
- LED type: SMD2835

Basic information

- Protection rating: IP44
- Working temperature range: -20 °C ÷ +45 °C
- On/Off cycles: 30000
- Dimensions: 85/26 mm
- Mounting hole: 70 mm
- Lumen Maintenance LM80: 50000 h
- Colour: satin nickel
- Starting time: <0.2 sec
- Warranty: 2 years
