

DATA SHEET

POWER SUPPLY FOR LED LIGHTING 36W, 12V DC, NON-WATERPROOF

ZNP1236

DESCRIPTION

The new model non-waterproof power supply for LED lighting is with power 36W and output stabilized 12V DC voltage that does not depend on the load. The power supply has extremely compact dimensions, plastic enclosure and degree of protection IP20 (non-waterproof). It is used in places with limited installation space and low power consumers - LED downlights, LED strips, LED modules. It does not emit significant heat when working and can be installed in small spaces. The power supply has overload, short circuit and overheat protection. It does not emit electromagnetic disturbances. Designed for interior use. When installing, ensure the necessary a space that guarantees better cooling.

BENEFITS

- Overload protection
- Overheat protection
- Short current protection

Electrotechnical information

- Voltage: 220-240 V AC
- Frequency: 50-60 Hz
- Maximum power: 36 W
- Class: II
- Maximum current: 3 A

Basic information

- Type of protection: IP20
- Working temperature: -20 °C ÷ +60 °C
- Dimensions: 145/45/30 mm
- Warranty: 2 years
